

Important Recommendations and Safety Tips for Vehicle Sanitation.

At E-Z-GO and Cushman we are committed to the health and well-being of our customers across the globe. In an effort to help curb the spread of the COVID-19 Coronavirus outbreak we are releasing detailed cleaning instructions for our vehicles based on guidance from the EPA, CDC, World Health Organization and others.

COVID-19 is a viral respiratory illness most commonly spread by close proximity to infected people, and less likely through mutual contact with hard surfaces. However, as our knowledge and understanding of the virus continues to evolve, both cleaning and disinfecting will be a critical part of the defense against COVID-19 and other viruses.

Please see our website for important COVID-19 health and safety tips below.
